

digi

```
graph BT; ax25_frame[ax25_frame] -.->|digipeater| digi[digi];
```

The diagram illustrates a pointer relationship. At the bottom is a gray rectangular box labeled 'ax25_frame'. A dashed purple arrow points upwards from this box to a white rectangular box with a gray border labeled 'digi'. The text 'digipeater' is positioned to the right of the arrow, indicating the variable or function that manages the pointer.
